

PVC Foam Board

PVC发泡板材 适用于高品质家具制作

GEOMETRATM
The Surveyor of Art

PVC Foam Board is a lightweight, high-density panel made from expanded PVC, designed for durability and versatility. It features a smooth, uniform surface and offers excellent resistance to moisture, termites, and warping, ensuring reliable long-term performance.

Applications:

Wall cladding
decorative panels
Cabinets & furniture
Partition walls
Signboards & display panels
Ceiling panels

Lightweight
yet High-Density
Structure

Smooth Surface,
Easy to Cut & Install

Durable &
Long-Lasting
Performance

Water-Resistant
& Moisture-Proof

Anti-Termite
& Anti-Corrosion

Wide Range of Application

应用场景

1. PFB 5mm

Size : 1220mm(w) x 5mm(T) x 2440mm(L)

Ideal for non-load-bearing applications, this thickness is perfect for decorative and finishing purposes. Its lightweight nature allows for easy handling and installation.

Applications:

Wall cladding & decorative panels
Cabinet backing panels
Ceiling panels
Feature walls

Focus: Aesthetic finishing, lightweight performance, and easy installation

2. PFB 15mm

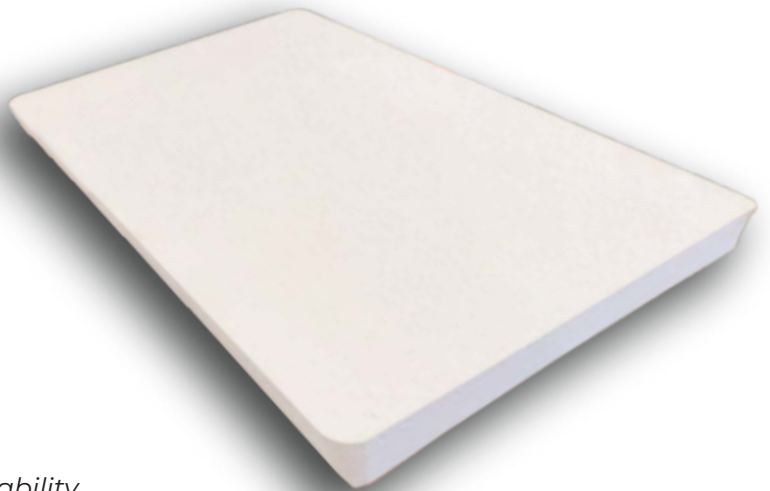

Size : 1220mm(w) x 15mm(T) x 2440mm(L)

A well-balanced option offering both durability and manageable weight. Suitable for general furniture structures and everyday interior use.

Applications:

Cabinet carcass / body
Light partitions
Shelving units
General furniture components

Focus: Structural support with versatility and durability

3. PFB 18mm

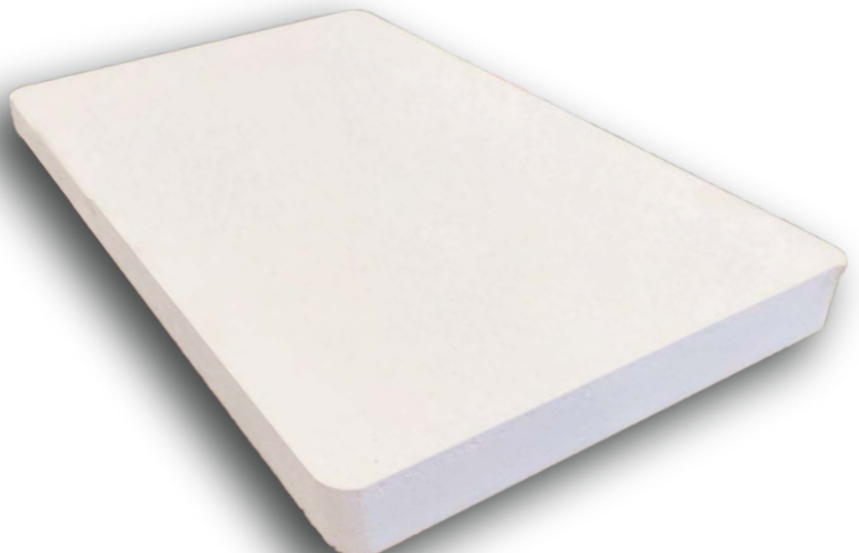

Size : 1220mm(w) x 18mm(T) x 2440mm(L)

Designed for applications that require enhanced strength and load-bearing capacity. Provides excellent stability for long-term use.

Applications:

Table tops / countertops
Heavy-duty shelving
Main cabinet structures
Wardrobes & built-in furniture

Focus: Maximum strength, stability, and long-lasting performance
