Step 1: Measure the Space
Begin by measuring the height of your space (from floor to ceiling) where the column panel will be installed. Ensure the column length matches the installation area accurately.

Step 2: Prepare the Base and Ceiling Area
Apply Maxbond glue to the base floor where the column will be positioned. Alternatively, for stronger support, you may screw the WA Cover Column (base) to both the floor and the top ceiling.

Step 3: Install WA Cover Column
Install the WA Cover on the floor and ceiling as the support bracket to hold both ends of the vertical panel column.

Step 4: Fix the Bottom of the Column Panel
Fit the bottom of the column panel into the WA Cover installed on the floor. Ensure it's firmly aligned and secured.

Step 5: Secure the Top of the Column Panel
Next, gently push and fit the top of the column panel into the WA Cover on the ceiling. Check that it's tightly placed and stable.

Step 6: Final Touches
Once everything is aligned, check the entire installation for balance and neatness. Your Column Panel installation is now complete!

PVC Fluted Panel is a versatile wall panel that can transform various spaces, including living rooms, kitchens, and even bathrooms. Made from high-quality PVC material, it is durable, water-resistant, making it suitable for both decorative and practical applications. Its modern fluted design adds texture and style while ensuring long-lasting performance.

Installation 安装指南

- 01 Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

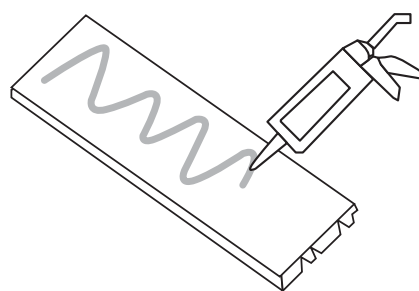

建议在施工前使用石膏板或胶合板进行准备工作，施工前请把墙上的墙纸去掉。

- 02 Circular saw can be used for cutting.
圆锯可用来切割。

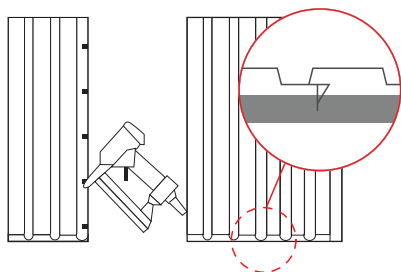

- 03 Apply nail free glue on the back of wall panel.
在格栅板背面涂上免钉胶。

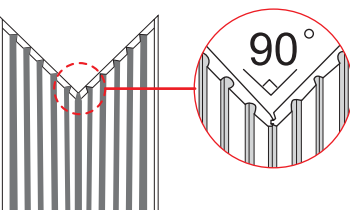

- 04 Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

格栅板可以水平安装，也可以垂直安装。应用拼接口的边缘可以隐藏钉眼。

- 05 For corner combine the two grooves.
在拐角处，通过合并两个槽口来进行收边。

- 06 Coordinating mouldings can be used for clean and nice finish.
收边条可以完美的解决格栅板的收口问题。

Water Resistant
防水防潮，经久耐用

Easy to Clean
耐脏易清理
